K.K. Kinney and R.L. Lindroth	Responses of three deciduous tree species to atmospheric CO ₂ and soil NO ₃ ⁻ availability	1
D.J. Dean	Finding optimal routes for networks of harvest site access roads using GIS-based techniques	11
B.K. Takemoto, A. Bytnerowicz, P.J. Dawson, C.L. Morrison, and P.J. Temple	Effects of ozone on <i>Pinus ponderosa</i> seedlings: comparison of responses in the first and second growing seasons of exposure	23
M. Méthy, D. Gillon, and C. Houssard	Temperature-induced changes of photosystem II activity in <i>Quercus ilex</i> and <i>Pinus halepensis</i>	31
D.W. Ross and H. Solheim	Pathogenicity to Douglas-fir of <i>Ophiostoma pseudotsugae</i> and <i>Leptographium abietinum</i> , fungi associated with the Douglas-fir beetle	39
M.R. Norton and S.J. Hannon	Songbird response to partial-cut logging in the boreal mixedwood forest of Alberta	44
M. Ursic, R.L. Peterson, and B. Husband	Relative abundance of mycorrhizal fungi and frequency of root rot on <i>Pinus strobus</i> seedlings in a southern Ontario nursery	54
F.C. Sorensen and J.E. Webber	On the relationship between pollen capture and seed set in conifers	63
C. Krause	The use of dendrochronological material from buildings to get information about past spruce budworm outbreaks	69
R.R. Martin, J.P. Zanin, M.J. Benette, M. Lee, and E. Furimsky	Metals in the annual rings of eastern white pine (<i>Pinus strobus</i>) in southwestern Ontario by secondary ion mass spectroscopy (SIMS)	76
H. Lei, B.L. Gartner, and M.R. Milota	Effect of growth rate on the anatomy, specific gravity, and bending properties of wood from 7-year-old red alder (<i>Alnus rubra</i>)	80
J.J. Zaczek and K.C. Steiner	Grafting-mediated meristem selection influences rooting success of <i>Quercus rubra</i>	86
R.D. Browne, C.G. Davidson, T.A. Steeves, and D.I. Dunstan	Effects of ortet age on adventitious rooting of jack pine (<i>Pinus banksiana</i>) long-shoot cuttings	91
R.D. Browne, C.G. Davidson, T.A. Steeves, and D.I. Dunstan	Rooting of proliferated dwarf shoot cuttings of jack pine (<i>Pinus banksiana</i>)	97
V.C. Baldwin, Jr., and K.D. Peterson	Predicting the crown shape of loblolly pine trees	102
J. Tardif and Y. Bergeron	Comparative dendroclimatological analysis of two black ash and two white cedar populations from contrasting sites in the Lake Duparquet region, northwestern Quebec	108
M.T. Ter-Mikaelian, R.G. Wagner, C. Shropshire, F.W. Bell, and C.J. Swanton	Using a mechanistic model to evaluate sampling designs for light transmission through forest plant canopies	117

NOTES

M.T. Ter-Mikaelian and R.G. Wagner	Distance-independent models for predicting photosynthetically active radiation transmission through young forest plant canopies	127
W.T. Adams, V.D. Hipkins, J. Burczyk, and W.K. Randall	Pollen contamination trends in a maturing Douglas-fir seed orchard	131
M.P. Koshy and D.T. Lester	Wood shrinkage and tree growth in coastal Douglas-fir: implications of selection	135

Instructions to authors		I-1
Recommandations aux auteurs		R-1

February / Février

- C. Galipeau, D.D. Kneeshaw, and Y. Bergeron White spruce and balsam fir colonization of a site in the southeastern boreal forest as observed 68 years after fire 139
- X. Wei, J.P. Kimmins, K. Peel, and O. Steen Mass and nutrients in woody debris in harvested and wildfire-killed lodgepole pine forests in the central interior of British Columbia 148
- J.S. Ward and G.R. Stephens Survival and growth of yellow birch (*Betula alleghaniensis*) in southern New England 156
- J.M.C. Pereira, M. Tomé, J.M.B. Carreiras, J.A. Tomé, J.S. Pereira, J.S. David, and A.M.D. Fabião Leaf area estimation from tree allometrics in *Eucalyptus globulus* plantations 166
- J.-M. Bouvet Effect of spacing on juvenile growth and variability of *Eucalyptus* clones 174
- N.A. Hipps, K.H. Higgs, and L.G. Collard Effects of root wrenching and irrigation rate on the growth and water relations of *Castanea sativa* and *Quercus robur* seedlings in the nursery and after outplanting 180
- P. Li, J. Beaulieu, and J. Bousquet Genetic structure and patterns of genetic variation among populations in eastern white spruce (*Picea glauca*) 189
- P. Li, J. Beaulieu, G. Daoust, and A. Plourde Patterns of adaptive genetic variation in eastern white pine (*Pinus strobus*) from Quebec 199
- M.W. Ritchie and D.W. Hann Evaluation of individual-tree and disaggregative prediction methods for Douglas-fir stands in western Oregon 207
- S.A. Knowe, W.I. Stein, and L.J. Shainsky Predicting growth response of shrubs to clear-cutting and site preparation in coastal Oregon forests 217
- R.K. Kobe and K.D. Coates Models of sapling mortality as a function of growth to characterize interspecific variation in shade tolerance of eight tree species of northwestern British Columbia 227
- M.B. Walters and P.B. Reich Growth of *Acer saccharum* seedlings in deeply shaded understories of northern Wisconsin: effects of nitrogen and water availability 237
- J. Suomela and S. Neuvonen Effects of long-term simulated acid rain on suitability of the mountain birch for *Epirrita autumnata* (Geometridae) 248
- N. Carisey and E. Baucé Impact of balsam fir foliage age on sixth-instar spruce budworm growth, development, and food utilization 257

NOTE

- H. Hasenauer, H.E. Burkhart, and R.L. Amateis Basal area development in thinned and unthinned loblolly pine plantations 265

DISCUSSION

- K.J. Stadt, S.M. Landhäuser, and J.D. Stewart Comment—The effects of direct-beam light on overcast-day estimates of light availability 272
- C. Messier and S. Parent Reply—The effects of direct-beam light on overcast-day estimates of light availability: On the accuracy of the instantaneous one-point overcast-sky conditions method to estimate mean daily %PPFD under heterogeneous overstory canopy conditions 274

Southern Regional Information Exchange Group Meeting / Réunion du groupe régional d'échange d'informations du Sud

Genetic Diversity in Commercial Forest Tree Plantations
Diversité génétique dans les plantations d'arbres forestiers commerciales

Clemson, S.C., U.S.A., 18 to 20 July 1994 / Clemson, S.C., É.-U., 18 au 20 juillet 1994

- B. McCutchan, G. Askew, and T. Blush Foreword / Avant-propos 395
- W.J. Libby, F. Bridgwater, C. Lantz, and T. White Genetic diversity in commercial forest tree plantations: introductory comments to the 1994 SRIEG meeting papers 397
- S.T. Friedman and G.S. Foster Forest genetics on federal lands in the United States: public concerns and policy responses 401
- C.C. Lambeth and R.B. McCullough Genetic diversity in managed loblolly pine forests in the southeastern United States: perspective of the private industrial forest land owner 409

E.E. Berg and J.L. Hamrick	Quantification of genetic diversity at allozyme loci	415
J.H. Roberds and J.W. Bishir	Risk analyses in clonal forestry	425
G. Namkoong	A gene conservation plan for loblolly pine	433
H.E. Stelzer	Evaluating genetic diversity concerns in clonal deployments	438
H.E. Stelzer and B. Goldfarb	Implementing clonal forestry in the southeastern United States: SRIEG satellite workshop summary remarks	442

REGULAR PAPERS / ARTICLES ORDINAIRES

E. Piutti and A. Cescatti	A quantitative analysis of the interactions between climatic response and intraspecific competition in European beech	277
G.E. Scarascia-Mugnozza, R. Ceulemans, P.E. Heilman, J.G. Isebrands, R.F. Stettler, and T.M. Hinckley	Production physiology and morphology of <i>Populus</i> species and their hybrids grown under short rotation. II. Biomass components and harvest index of hybrid and parental species clones	285
S. Boivin and Y. Bégin	Development of a black spruce (<i>Picea mariana</i>) shoreline stand in relation to snow level variations at Lake Bienville in northern Quebec	295
L. Finér, C. Messier, and L. De Grandpré	Fine-root dynamics in mixed boreal conifer - broad-leaved forest stands at different successional stages after fire	304
O. Zackrisson, G. Norberg, A. Dolling, M.-C. Nilsson, and A. Jäderlund	Site preparation by steam treatment: effects on forest vegetation control and establishment, nutrition, and growth of seeded Scots pine	315
R.B. Allen, P.W. Clinton, and M.R. Davis	Cation storage and availability along a <i>Nothofagus</i> forest development sequence in New Zealand	323
S.W. Simard, R. Molina, J.E. Smith, D.A. Perry, and M.D. Jones	Shared compatibility of ectomycorrhizae on <i>Pseudotsuga menziesii</i> and <i>Betula papyrifera</i> seedlings grown in mixture in soils from southern British Columbia	331
F. Feuillat, J.-L. Dupouey, D. Sciama, and R. Keller	A new attempt at discrimination between <i>Quercus petraea</i> and <i>Quercus robur</i> based on wood anatomy	343
K.E. Lowell	An empirical evaluation of spatially based forest inventory samples	352
G.A. Bartholomay, R.T. Eckert, and K.T. Smith	Reductions in tree-ring widths of white pine following ozone exposure at Acadia National Park, Maine, U.S.A.	361
V.J. Monleon, K. Cromack, Jr., and J.D. Landsberg	Short- and long-term effects of prescribed underburning on nitrogen availability in ponderosa pine stands in central Oregon	369
P.C. Van Deusen	Annual forest inventory statistical concepts with emphasis on multiple imputation	379
M.E. Dubrasich, D.W. Hann, and J.C. Tappeiner II	Methods for evaluating crown area profiles of forest stands	385

April / Avril

H. Taira, Y. Tsumura, N. Tomaru, and K. Ohba	Regeneration system and genetic diversity of <i>Cryptomeria japonica</i> growing at different altitudes	447
M.S. Günthardt-Goerg, C.J. McQuattie, C. Scheidegger, C. Rhiner, and R. Matyssek	Ozone-induced cytochemical and ultrastructural changes in leaf mesophyll cell walls	453
K.-H. Han, M.P. Gordon, and S.H. Strauss	High-frequency transformation of cottonwoods (genus <i>Populus</i>) by <i>Agrobacterium rhizogenes</i>	464
A.M. Hietala	The mode of infection of pathogenic uninucleate <i>Rhizoctonia</i> sp. in conifer seedling roots	471
M.G. Cruickshank, D.J. Morrison, and Z.K. Punja	Incidence of <i>Armillaria</i> species in precommercial thinning stumps and spread of <i>Armillaria ostoyae</i> to adjacent Douglas-fir trees	481
S. Magnussen	Calibrating photo-interpreted forest cover types and relative species compositions to their ground expectations	491
S.M. Hope and C.-Y. Li	Respiration, nitrogen fixation, and mineralizable nitrogen spatial and temporal patterns within two Oregon Douglas-fir stands	501
D. Cantin, M.F. Tremblay, M.J. Lechowicz, and C. Potvin	Effects of CO ₂ enrichment, elevated temperature, and nitrogen availability on the growth and gas exchange of different families of jack pine seedlings	510
C.-H. Ung, F. Raulier, D. Ouellet et J.-F. Dhôte	L'indice de compétition interindividuelle de Schütz	521

J.V.H. Constable and G.E. Taylor, Jr. Modeling the effects of elevated tropospheric O ₃ on two varieties of <i>Pinus ponderosa</i>	527
K. Klimaszweska, Y. Devantier, D. Lachance, M.A. Lelu, and P.J. Charest <i>Larix laricina</i> (tamarack): somatic embryogenesis and genetic transformation	538
H. Bugmann An efficient method for estimating the steady-state species composition of forest gap models	551
F.C. Sorensen Effects of sib mating and wind pollination on nursery seedling size, growth components, and phenology of Douglas-fir seed-orchard progenies	557
A. Ostrofsky, J. Jellison, K.T. Smith, and W.C. Shortle Changes in cation concentrations in red spruce wood decayed by brown rot and white rot fungi	567
B. Persson and E. Beuker Distinguishing between the effects of changes in temperature and light climate using provenance trials with <i>Pinus sylvestris</i> in Sweden	572
R. Villalba and T.T. Veblen Spatial and temporal variation in <i>Austrocedrus</i> growth along the forest-steppe ecotone in northern Patagonia	580
C.E. Prescott and L.M. Zabek Growth response and nutrient availability in western redcedar plantations following amendment with fish-wood compost and straw	598
P.V. Blenis and I. Duncan Management implications of western gall rust in precommercially thinned lodgepole pine stands	603

NOTES

P. Niemelä, I. Lumme, W. Mattson, and V. Arkhipov ¹³ C in tree rings along an air pollution gradient in the Karelian Isthmus, northwest Russia and southeast Finland	609
R.D. D'Arrigo, D.K. Yamaguchi, G.C. Wiles, G.C. Jacoby, A. Osawa, and D.M. Lawrence A kashiwa oak (<i>Quercus dentata</i>) tree-ring width chronology from northern coastal Hokkaido, Japan	613
